ROSELAND SCHOOL DISTRICT

Local Community and Extracurricular Activities That Support Students with Special Needs

In our efforts to continue to promote positive growth opportunities for your children beyond the parameters of the school day, the Parent/Administration Collaborative has compiled the following list of local organizations that provide community and extracurricular activities which have been known to support students with special needs. We are extremely grateful for the input that we have already received in compiling such an extensive list. As new opportunities continue to become available, we hope to keep this list growing, too. Please do not hesitate to reach out with recommendations for additional organizations or extracurricular activities that you've had positive experiences with and we will add them to the list!

A. Organizations that offer extra curricular classes, specifically for children with special needs:

- a. Pathways - <https://www.pathwayskids.org/> (Montville)
